PROFILE

ABOUT US

OUR STORY

iLearn was born out of a purpose to empower people to empower others. We seek to work together with other like-minded, forward-thinking companies to grow their people and their business.

What we have recognised over the years is the need not only for learning solutions that are purposeful and continuous in upskilling people, but also for solutions that can be easily implemented in order to save time and money, and provide complete peace of mind.

At iLearn we pride ourselves on **MAKING THE COMPLEX SIMPLE**. Our experienced and knowledgeable team will expertly guide and reassure you through each learning experience. If you are looking for a company who wants to invest in your people and your future, then you have come to the right place!

 <p>Trainers matched to your company culture</p>	 <p>Continual support and guidance</p>	 <p>Mentor and management induction</p>

BUT DON'T JUST TAKE OUR WORD FOR IT...

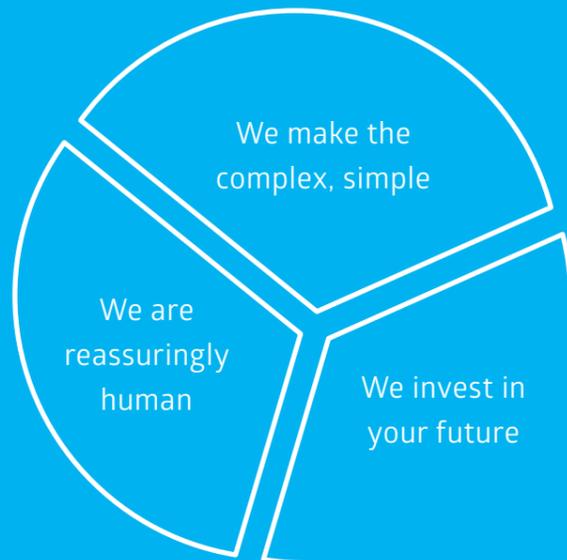

“I feel confident in recommending iLearn’s services. They are not only thorough, but also easy to work with, and always willing to take the time to discuss our concerns and respond to questions.”
- Priya Bhulla, National HR Coordinator, Konica Minolta

I would firstly like to thank you for the opportunity that you have given me. It was an eye-opener and it has given me a platform to enhance my potential, showcase my corporate understanding and identify my weaknesses and strengths. Please may you also continue to give other young South Africans the same opportunity you have given me. I am here today because you believed in me and for that I thank you. - Given Mkhwanazi, able-bodied learner on the Konica Management NQF Level 3 Learnership programme, hosted by Spar.

“iLearn is a company with a high moral standing that is trying in earnest to meet rigorous business demands, as well as trying to assist people with disabilities and unemployment. iLearn does this with a degree of finesse seldom found in the field today. They have done this by innovating symbiotic learning solutions that can couple BBBEE needs with the NSDS adequately... Thus far, I have not been promised anything that couldn’t be delivered, and I do appreciate it. I have had a positive experience with iLearn, and I would definitely recommend them to any company that is seeking solutions rather than transactions.” - Adil Sewcharan, HRD Practitioner, Suncoast Casino

THE PROMISE WE MAKE TO YOU!

TRADITIONAL VERSUS BLENDED

TRADITIONAL LEARNING

KEY FACTORS

BLENDED LEARNING

Instructor-led Learning offering structure to the learning experience and is generally richer in instructor and classmate interaction.

Face-to-face instruction;
Course material.

Personal touch which helps learners to stay motivated and on track.

Promotes a more focused and impactful interaction between facilitator and learners, which for some learners may be vital to their success.

Style of Learning

Learning Mediums

Learner Benefit

Client Benefit

Blend of Instructor-led Learning and Digital Learning offering exceptional convenience, pace, choice and flexibility.

Face-to-face instruction;
Course material;
Video-based facilitation;
Virtual practical labs;
Preparation mock exams.

Enables time-stressed learners to self-manage much of their learning and progress at their own pace.

Unlimited access to eLearning and related products.

Flexibility to schedule when the learner meets the notional hours.

Reduced classroom time, which increases learners' work productivity.

THE SECRET TO SUCCESS

A Learnership is an extremely complex and often challenging project that requires:

Hard work and dedication

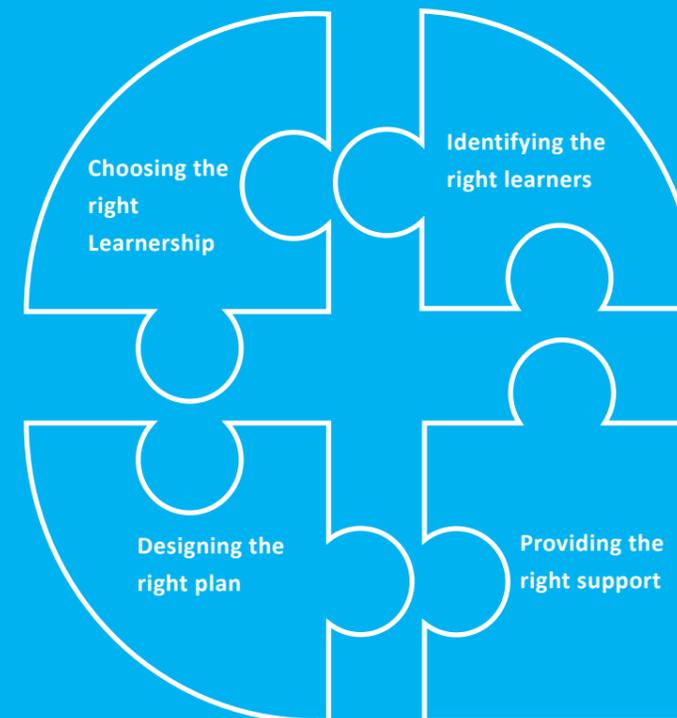

Alignment between the training provider, company and learner

A guide that you can trust

Learner engagement, retention and completion is dependent on a number of key factors:

LEARNERSHIP BENEFITS

Improve your BBBEE Score

Grow your people

Pay less tax

Build your talent pipeline

Invest in the economy

SHORT COURSES

Short courses are an easy and effective way to upskill your people. This enables them to apply their new knowledge in your workplace immediately.

Success is dependent on a number of key factors:

Matching the right course and level to the right learner

Providing an opportunity to apply the knowledge immediately in a practical environment

Flexibility around the timing and location of training

Business

With technology evolving at a rapid pace, we find ourselves entering a new age of learning. Globalisation expands our reach, automation alters processes and new skills emerge. This new era is not only a shift in tools, it's a shift toward employee-centric design. Today's 'digital learning' does not simply mean producing content that is easy to view on one's phone, it means 'bringing learning to where employees are'.

LEARNING PLATFORM

EXCLUSIVE DISTRIBUTOR OF THE NETEX LEARNINGCLOUD LMS

LearningCloud is the new learning ecosystem for today's workforce. Breaking free from the constraints of the traditional LMS, LearningCloud adopts an applications-based approach to provide your learners with a more personalised and engaging environment in which to learn. LearningCloud is a fully integrated learning platform that can grow and adapt with your changing business needs. It is able to provide solutions that incorporate Gamification and Social Learning, as well as Mobile Learning for the modern-day learner.

LEARNING CONTENT

Research shows that learning delivered through bite-size learning components, enables learners to easily and effectively gain and retain knowledge. iLearn has partnered with a number of leading, international content providers to offer you a comprehensive library of off-the-shelf eLearning content to cater for every aspect of your business. Our course content creates a learning experience that is personalised, measurable and project-based. It allows for collaboration and is linked to a global community.

TRAINING ADMINISTRATION SYSTEM

The iConnex training administration system has been designed and developed for the South African market. Utilising the latest in technology, iConnex will enable you to plan, monitor and report on each learning experience implemented within your organisation.

CUSTOM COURSE DEVELOPMENT

The one-size-fits-all training approach is a thing of the past. In this day and age, specific company or learner requirements often drive the need for customized learning programmes. By utilizing the LearningCloud LMS "Learnmaker" content creation tool, we are able to help you develop custom digital learning content.
